

Hanford

Credenza

For Opus Magnum, good looking and functional credenzas are as important as our tables. Nothing is sacrificed in the craftsmanship of its construction. What distinguishes the Hanford is the use of overlay doors. This confers a sleek, streamlined appearance. Hanford comes in a huge selection of sizes, materials and colours. It is adaptable to accommodate any storage requirements, including AV equipment and a fridge - a highly popular option.

Standard choices for tops are wood veneer and 10mm back painted toughened glass. But for an impact that outweighs the extra cost you could choose stone, corian or exciting new materials such as micro cement.

Outer panels and doors can be pigmented lacquer or HPL laminate as well as wood veneer.

Choose from six standard sizes or discuss your bespoke requirements with us. This extensive flexibility means Hanford credenzas can complement any office design, whether as single units or in groups.

Credenza Info

Finishes

Veneer: any veneer can be obtained but we offer three as standard: European oak, maple and American black walnut. These can be either crown or straight grain. Speak to Magnum Opus's creative team for some great ideas.

Laminate: we also supply a wide selection of laminates in both wood grain effect and plain colours. Edgings are 2mm ABS, colour matched or contrasting.

Pigmented lacquer: credenzas can be sprayed in any RAL colour lacquer. Matt is the most economical sheen. High gloss or burnished finishes are at additional cost.

Detail

Handles: there's a wide selection of styles in timber or metal. Handles can be flush or surface mounted. Metal handles are polished or brushed to match the plinth. Touch latches and locks are available.

Leg detail: choose between chrome corner posts or an inset steel plinth. The plinth finish can be polished, satin, powder coat or laminate.

Sizes

2 door 1200 x 500:

AV 1200 x 600:

3 door 1600 x 500:

AV 1800 x 600:

Please call with any request.

Extras

AV: our credenzas meet the AV and computer needs of the modern office, housing standard Mid Atlantic SRSR 12 @19" racks. Cable routing is provided and doors open 180 degrees for maximum access.

Ventilation: good airflow is essential when electrical equipment is enclosed. Opus Magnum credenzas can easily be fitted with suitable inflow and outflow points.

Grommets 60 or 80mm: for plugs and power leads

21mm: for telephone cables

Fridges: an Electrolux 37 litre integrated model can be included.
